

## Homefinder Somerset Survey of Households who have been housed. September 2023 Update

Each month since August 2022 a survey has been sent to households who have recently been housed to give us their views on Homefinder Somerset.

382 responses had been received by 13<sup>th</sup> September.

The main findings, and what will be done as a result, are set out below.

### **Registering with Homefinder Somerset**

Most people who completed the survey said that registering with Homefinder Somerset was very easy (42%), easy (25%) or fine (22%). However, a minority found it difficult (7%) or very difficult (5%).

People were invited to provide comments on how they found registering with Homefinder Somerset. Most people reported that they found it easy to register with Homefinder Somerset. However, there were a small number of people who expressed frustration at the time taken to respond to changes they made to their application or having to complete the entire form again when updating any information.

#### **Response:**

- The application form was updated in October 2022 so that, when updating their details, people only need to amend what has changed rather than complete the whole form from scratch.

### **Bidding for homes**

Most people reported that bidding for homes was very easy (67%), easy (17%) or fine (9%). However, a small number found it difficult (5%) or very difficult (3%).

Whilst people found bidding easy, concern was raised by some people about the lack of information about some homes that were advertised.

#### **Response:**

- We are working to improve the information given by landlords on homes being advertised.

### **Being kept informed by landlords**

Just over half of respondents felt that they were kept well informed by landlords when being considered for homes. However, 48% of respondents either felt that they weren't kept well informed or only sometimes.

Feedback from people who felt that they were not always kept well informed included: that some landlords were better than others at keeping them informed, feeling rushed to make a decision, and not being kept informed if there were delays with properties being ready.

#### **Response:**

- We have shared the feedback with landlords and emphasised the need to keep applicants informed.

**Survey of Households who have been housed.**  
**September 2023 Update**

**Is Homefinder Somerset a fair way of letting homes?**

Most people felt that Homefinder Somerset is a very fair (44%), fair (20%) or fine (23%) way of letting homes, but a small number felt that it was unfair (7%) or very unfair (6%). It is recognised that, as this is a survey of households who have been housed, it is very likely that the feedback will be more favourable than those who have not been housed.

**Satisfaction with the service from Homefinder Somerset**

Most people were very satisfied (53%) or satisfied (23%) with the service they had from Homefinder Somerset, whilst 12% felt the service was fine. However, a small minority of people felt unsatisfied (6%) or very unsatisfied (6%).

In the feedback provided the most common negative comment received was the length of time it took people to be rehoused.

**Response:**

- Unfortunately, there is a huge difference between the number of households looking for a council or housing association home and the number of homes that are available. There are currently nearly 11,000 households registered with Homefinder Somerset, but only 2,185 homes were let in the last year.
