

Homefinder Somerset Quarterly Monitoring Report April 2021

Introduction

This report provides the latest key information from Homefinder Somerset, and covers the year from 1 April 2020 to 31 March 2021.

Households registered with Homefinder Somerset

The number of households registered with Homefinder Somerset fell by 940 (9%) to 9,295 between 1 April 2020 and 31 March 2021.

This change is largely accounted for by the reduction in the number of households registered with Somerset West & Taunton over the year (812 households, a fall of 20%), following the work they are undertaking to review the register. South Somerset and Sedgemoor also saw a reduction of households registered over the year (10% and 1% falls respectively), whilst Mendip saw an increase of 103 households (7%).

The proportion of households in Gold Band varies from 6% in Sedgemoor to 10% in South Somerset. It can be seen that the proportion of households in the Silver Band is similar in 3 of the 4 local authorities (35 - 37%), whilst Mendip has a higher proportion (50%). The proportion of households in Bronze Band ranges from 43% in Mendip to 60% in Sedgemoor.

Note: The percentages refer to the proportion of households who are in that Band (e.g. 7% of all households are in Gold Band). The percentage given for the total refers to the proportion of all households registered with a particular local authority (e.g. 26% of households are registered with Sedgemoor DC).

It can be seen from Table 2 and Chart 1 that the number of households registered with Homefinder Somerset has increased by 13% since April 2017 (Q4 2016/17). Sedgemoor and Somerset West & Taunton have both seen a 25% increase in the number of households registered. Mendip saw a 7% increase in the number of households registered since April 2017, whilst South Somerset have seen an 8% reduction over the same time.

The partner local authorities and landlords fund voluntary organisations (Home Group, YMCA Brunel and YMCA Dulverton) to provide Tenancy Accreditation Schemes across the Somerset. The aim of these schemes is to prepare people to take on a tenancy or to address issues in an existing tenancy, with the aim of improving someone's chances of sustaining their tenancy. Table 4 shows that 107 households registered on Homefinder Somerset have completed a Tenancy Accreditation Scheme.

Bidding Analysis

Between 1 April 2020 and 31 March 2021 nearly 128,000 bids were placed on homes across Somerset. Table 5 below shows the impact of COVID-19 in April and May 2020 when only a small number of homes were advertised due to the lockdown.

Over the last year an average of 10,658 bids were placed each month, by an average of just under 2,800 households. It can be seen that the highest number of bids and households placing bids was in March 2021.

98% of bids made during the last year were placed via the website.

Table 6 below shows the proportion of households by local authority and Band who are considered to be inactive (e.g. they have not bid or logged onto the Homefinder Somerset website during the last 6 months). This analysis excludes those households who have only registered in the last month and may not have had the opportunity to bid or login to the website.

It can be seen that 25% of households registered with Homefinder Somerset can be considered as inactive. The proportion of inactive households varies by Band and local authority. The proportion of inactive households increases from 14% of households in Gold Band, to 20% in Silver Band and to 30% in Bronze Band.

The proportion of inactive households ranges from 14% in South Somerset & 16% in Mendip to 31% in both Sedgemoor and Somerset West & Taunton.

Table 7 reveals that an average of 64 bids were placed for the 2,073 homes advertised in letting cycles that ended between 1 April 2020 and 31 March 2021. This is up from an average of 53 bids for homes advertised in the previous year.

The average number of bids varied considerably between local authority areas and property type/size. The average number of bids for houses (109) was over 2.5 times greater than that for flats (41). This difference can be even more marked. For example in Sedgemoor there was an average of 160 bids for 2 bed houses (73 properties) compared to an average of only 28 bids for 2 bed flats (106 properties). The average number of bids for homes advertised during the last year ranged from 46 bids in South Somerset (673 homes advertised) to 85 in Somerset West & Taunton (541 homes advertised).

April 2021**

478 homes (23%) advertised during the last year received over 100 bids. The highest number of bids received was 345, for a 2 bed house in Puriton.

It can be seen from Table 8 that only 9 homes were advertised in the last year with a preference to applicants who had completed a tenancy accreditation scheme. Landlords have been encouraged to advertise some homes with this preference, and this will be monitored in future.

Rejection Reasons

During the last quarter landlords set 1,895 bids to match or offer rejected. 1,162 households were match or offer rejected (as some households were match or offer rejected for more than 1 property) by landlords for 820 homes (as more than one household was match or offer rejected on some homes).

Table 9 shows that the most common reason why bids were rejected. As highlighted in previous reports, the most common reason was 'Applicant no longer wants to be considered', which accounted for 13% of cases. The other most common reasons why applicants were rejected were: 'Applicant considered unsuitable due to arrears/debts' (9%), 'Applicant states property is unsuitable' (9%), 'Applicant did not respond' (9%), and 'Applicant states area is unsuitable' (8%). Together these reasons accounted for nearly half (48%) of all rejections during the quarter.

Table 9 and Chart 2 reveal that there is variation between landlords in the reasons used to reject bids. Chart 2 shows the most common reasons used by the largest 7 partner landlords. It can be seen that for Abri the most common reason used was 'Applicant no longer wants to be considered' (24% of all cases), for Aster it was 'Landlord_Property not suitable for applicant' (10%), for Homes in Sedgemoor it was 'Applicant states area is unsuitable' (18%), for LiveWest it was 'Landlord_Property not suitable for applicant' and 'Applicant did not respond' (which both accounted for 12% of cases), for both Magna and Somerset West & Taunton it was 'Applicant states property not suitable' (16% and 15% respectively), and for Stonewater it was 'Applicant considered unsuitable due to arrears/debts' and 'Applicant did not respond' (which both accounted for 16% of cases).

Table 10 shows that a far larger number of bids were skipped rather than be set to match or offer rejected. Landlords skipped 9,914 bids from 3,422 households on 1,036 homes in the last year. By far the most common reason used for skipping a bid was 'Shortlist order ignored for more suitable applicant', which accounted for 81% of all bids skipped. A number of new skipping reasons were introduced in February that it is hoped will provide a greater understanding of why bids were skipped (e.g. Applicant doesn't need accessible or adapted home or meet local connection criteria etc.).

Homes Let

1,923 homes across Somerset were set to let² between 1 April 2020 and 31 March 2021. This is down from 2,526 (a reduction of 24%) from the number of homes let in 2019/20. However, this is due both to the impact of COVID-19 and to the fact that 2019/20 saw a higher number of homes let due to a large number of older adverts being updated³.

Tables 11 and 12 set out the profile of the homes let in the last quarter by size, local authority and landlord. 43% of homes let in the last year were 1 bed or studio homes and 41% were 2 bed homes. South Somerset again accounted for the highest number of homes let (620).

² These homes were set to Offer Accepted. This figure includes homes let by direct match.

³ The number of homes let in 2019/20 was 22% higher (406 homes) than the number let in 2018/19

436 homes were let to homeless applicants in Gold Band or Silver Under Relief in the last year, nearly a quarter (23%) of all homes let. This proportion is up from 15% in 2019/20. This increase is due to the fact that a number of homes were advertised with preference to homeless households or let by direct match during the initial COVID-19 lockdown as local authorities sought to free up temporary accommodation and move people off the streets. The proportion of homes let to homeless applicants in Gold Band or Silver Under Relief ranged from 30% in South Somerset to 11% in Mendip – see Table 15.
